

Office 365 for End Users 1 Day Course

Overview

Office 365 (O365) is Microsoft's cloud based subscription service. It consists of many familiar Office products and can be managed and configured through an online portal. Being cloud based users can access their applications and files from virtually anywhere and will always have the most up-to-date version of the Office applications.

Delegates will use Office Web Apps, OneDrive, SharePoint Online and Teams to gain a better understanding of how they all interact with one another in the cloud.

Note: This standard course is totally customisable to suit the way your business works. Feel free to pick and mix content to create your own tailored course from the list of optional topics.

Audience

Users migrating to Office 365.

Course Objectives

By the end of the course, delegates will be able to:

- Understand and navigate within the cloud and OneDrive
- Use WebApps e.g. Outlook, Excel, Word
- Use Teams for communicating with others
- Work within SharePoint as a user

Prerequisites

Delegates should be familiar with Microsoft Office and Windows.
